Examples of graphical abstract

**No EPR effect for free rhodamine B, a low MW fluorophore.**

**EPR effect positive for BSA-rhodamine B conjugate, fluorescent nanoprobes.**

---

**Paclitaxel/cisplatin**

$$\text{P(SA-RA) polymer}$$

---

**Advances in control and endpoint detection of fluidized bed granulation via implementation of real-time analytical process sensors.**

Discussd process analyzers include:

- NIR spectroscopy
- Image analysis
- Focused beam reflectance measurement
- Spatial filter velocimetry
- Acoustic emission
- Raman spectroscopy
- Triplelectric probes
- Microwave resonance technology
- Electrical capacitance tomography.
3-Hydroxyflavone

A: R = Cl
B: R = OH
